## SUNDAY SCHOOL PICNIC

On Friday of this week the Christian Church and Sunday School will hold its picnic at Beechwood Park. The members of the school have asked to be at the church at nine o'clock or to take the car which leaves the transfer at the Washington at nine o'clock in the morning. The committee will be at the church at this time. R. P. D. Thomson and John Fansler will be on the transportation committee. The children will be looked after by the adult members of the school. All are asked to bring something for the picnic dinner. The committee, Mrs. J. Ed Parker and Miss Anna McDougal asks that instead of going to the expense of packing a general basket each family prepare a part of some one thing for the dinner. By phoning to the committee information as to what to bring will be given. All those attending will eat together. The sports will be in charge of Carl Daulton. All teachers who can do so are urged to go up on the nine o'clock car. This picnic will be for the adult members of the school and their families as well as for the younger folks.

## SEEKING RECRUITS

Officers and Band of Second and Third Regiments Kentucky National Guards Arrived Yesterday Afternoon and Are Now In Camp in City.

The band of the Second Regiment and officers of the Second and Third Regiments arrived in this city yesterday afternoon about 1 o'clock in Ford automobiles, having started from Winchester, where they are located. Monday morning. It is the purpose of these guardsmen to secure recruits for the Kentucky National Guards so that they may be trained for immediate service.

The men erected their tents and placed their automobiles on the Court-house lawn and will make their headquarters there for the balance of the week while they scour Maysville and surrounding towns for recruits.

Besides the twenty-seven-piece band the following officers are in the city: Major Denham, Second Regiment. Major Jones, Third Regiment. Captain Adams, Medical Corps Second Regiment.

First Lieutenant Otto of General Williams' staff. Lieutenant Nesbitt, Third Regiment. Before returning to Winchester these men intend to make a tour of East and Central Kentucky.

The Second Regiment now needs several new men for the band, preferably clarinet, saxophone or trombone players. The pay for those who play in the band is very liberal and any young fellows who are proficient and capable of passing the examination will be accepted until these gaps are filled up.

Tonight at 7 o'clock sharp there will be a band concert on Courthouse Square, after which Captain Denham and Lieutenant Otto will make talks telling of the work of the National Guard and what it offers to young men.

The party carries with it one of the famous Lewis machine guns and everyone will be anxious to see this wonderful gun upon which the United States is relying so very strongly.

## First Day's Roll of Honor

Following are those who enlisted yesterday:  
Albert Pfeiffer, 21.  
William Duley, 27.

The purpose of the League will be to do active work for a re-nu-meration and the proceeds to be divided between the Red Cross and the League. Another "Get Busy" meeting will be held in a few days at the call of the Secretary.

## BOYS ARRESTED AT THE DAM

On complaint of the special officers at the dam two boys were arrested yesterday afternoon by Chief of Police James Mackey. They were caught entering one of the buildings at the dam, presumably to steal. One of the boys had in his possession a revolver which he said he stole at Maysville. It is thought probable that the young fellows have escaped from the reform school at Glendale and Judge Rhee has communicated with the authorities there about them.

Word was received here this morning of the death of Mr. Jett Thomas at Hazelwood Sanatorium, Louisville, at 8:20 o'clock this morning. Mr. Thomas has been in feeble health for a number of years and although his death was not a surprise it was a great shock to his many friends here. He was a man of many splendid traits of character and his friends were numbered by the score.

TAX SLACKERS

There are many kinds of slackers. The one who tries to dodge military duty is only the most obvious type of offender. There are others nearly as contemptible. And among them Charles W. Eliot, president emeritus of Harvard, gives special distribution to the tax dodgers.

After men, our government needs money. A denial of funds would mean disaster as surely as would a denial of soldiers. Tax-slacking is a sort of financial mutiny. And it's not merely an insidious blow at national success. It's a blow at the slacker's own character.

Tax-dodging doesn't consist only in the secret evasion of one's financial obligation to the government. It is found just as clearly in demands for special legislation favoring large classes of people who should properly share the tax burdens. Says President Eliot:

"If the great majority of voters who are of moderate or narrow incomes use their control of taxation to avoid paying any taxes themselves, they surely will lose their self-respect, and therewith those sturdy, independent, honest and just qualities which alone benefit free men. By their own selfish and mean action they become morally pauperized. The action of the American democracy on the income tax already shows signs of this insidious demoralization."

It is proper enough for the small-income man to demand that the multimillionaire pay a heavy sur-tax on his big income. But there is no justice in that unless the former is willing himself to pay in proportion to his ability. The humble citizen, provided he is above the actual poverty line, should not object to paying dollars where the rich man pays thousands.

FLAGS AND SENSE

A German merchant engaged in business in New York City, in answer to criticisms directed at him for neglecting to display an American flag, explains:

"I am still a German subject. If I were to raise an American flag in front of my store it would of course be for business reasons, and that would make me a hypocrite. I think the flag should be respected more than that."

He is right. There should be no hypocrisy or profit-making out of the flag. It is the symbol of patriotism, of heartfelt and voluntary loyalty. It should be displayed only by men and women to whom it means something.

It is wrong to insist that aliens living in this country should put up American flags. They are under no obligation to do so. It is enough if they obey our laws and avoid treasonable or disreputable acts and words. If they choose to display our colors as evidence of good will, so much the better. But they should not be badgered into hypocritical professions of loyalty by fear of business or social ostracism.

Treat them courteously, show them the meaning of American tolerance and freedom, give them time, and eventually they'll all be raising the Stars and Stripes. The German merchant quoted has in him the making of a good American.

One dear girl singing her communication to The Herald, "Blue Eyes," writes to explain that she fell in love three months ago with a youngster, who tells her girl friends that she is the "only woman I ever loved," and has been keeping the entire track hot from the quarter pole to the wire in a race with another dashing swain who saw her first and has never permitted the breath of suspicion to taint the atmosphere of his loyalty. She asks The Herald to advise her on the great question whether she should bow down to the new and strange god or stand by her original henchman. Our expert advice is to lasso the first fellow that sticks his head out of the bushes and hog-tie him for "keeps."—Lexington Herald.

BERLIN NOTIFIED BY GREECE OF RUPTURE

Amsterdam, July 3.—According to the North German Gazette, the Greek charge at Berlin has handed the German government a statement similar to that delivered to the Austrian government at Vienna today, notifying the foreign office that Greece feels herself obliged to break relations with Germany.

CRISIS OF WOMAN'S LIFE

Change Safely Passed by Taking Lydia E. Pinkham's Vegetable Compound.

Wagoner, Okla.—"I never get tired of praising Lydia E. Pinkham's Vegetable Compound because during Change of Life I was in bed two years and had two operations, but all the doctors and operations did me no good, and I would have been in my grave today had it not been for Lydia E. Pinkham's Vegetable Compound."—Mrs. VIOLA FINICAL, Wagoner, Okla.

Such warning symptoms as sense of suffocation, hot flashes, headaches, back-aches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through the crisis.

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, and the pains were very severe. A friend told me I had tried everything else, why not Cardui? I did, and soon saw it was helping me. After 12 bottles, I am strong and well."

TAKE CARDUI The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

Catarhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or impaired hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarhal, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surface of the system. We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc. F. J. CHENEY & CO., Toledo, O.

MEALS AT KAVANAUGH CAMP

It is psychologically true that happiness and good humor during meals aids one in keeping healthy. Doubtless you have always been taught that it is a breach of etiquette for one to sing at the table. However, realizing the value of happiness and good humor, the campers forgot etiquette in order to sing. At times the dining room resounds with the sounds of merry singing. One group of people vies with another in singing songs of loyalty to its conference, or songs of praise to the conference leaders. No favor, no honor won, goes unnoticed by this hungry, healthy band of young people. Don't forget to register in time. Write to Miss Helen McCanness, 111 S. Floyd St., Louisville, Ky.

COAL ENOUGH — OFFICIAL FIGURES FOR SIX MONTHS REASSURING TO COAL USERS.

Not only food but fuel is a vital need of this country and of our allies — coal to run the ships and railroads, to feed the iron furnaces and furnish steam for all the manufacturing plants, coal in greater quantities than have ever before been mined in the United States or in any part of the world — and this need is being met in truly American fashion by the operators and owners of the mines and by the diggers of coal. With these words, Secretary Franklin K. Lane began his statement regarding the coal situation as reported to him by the statisticians of his Department.

The production of coal in the United States last year, he continued, was the greatest in the history of the country. A new record, however, was set for the first six months of this year, fully 270,000,000 tons of bituminous coal being produced since January 1st, thus exceeding the output of the first six months of last year by about 20,000,000 tons. Even better news is that the limit has not yet been reached, for as the railroads are able to work out to better advantage the problem of car supply and give to the mines greater facilities for transporting their product to market, the supply of coal that reaches the consumer will be in steadily increasing quantities. In the early months of 1917, because of the congestion of the railroads and the difficulties of transportation, the production of bituminous coal fell behind the high mark set in January and February, a year ago. As a result of the patriotic and earnest endeavor of the railroad officials and the coal operators and representatives of mine workers who have volunteered their services to the Federal Government in this emergency, production has been speeded up within the last few months and the output of soft coal which in

May exceeded all previous records, was surpassed in June.

Despite the extra demand in this country and the urgent needs of our allies, no one with the facts before him can doubt that the coal industry, under the careful guidance of those now directing its welfare, will be able to supply all needs.

The difficulty of distribution now so great will be intensified, however, in the coming winter months. Just as consumers of foodstuffs are being urged to eliminate all waste and to practise sensible economy, so the consumers of coal must do their share in working out the coal problem, by unloading every coal car as fast as it is received, and in improving their plants so as to utilize to the fullest the heat value of the coal that reaches their bins. In stopping the coal panic and in expediting a condition of fuel sufficiency, every consumer can do his bit.

**TEN THOUSAND CAPTIVES ARE TAKEN BY RUSSIA**

Prisoners exceeding ten thousand and the capture of the village of Konluchy and strongly fortified positions southwest of Brozozany are the first fruits of the new offensive movement of the Russian forces in eastern Galicia. North of Konluchy the Russians have attacked and fresh battles are in progress.

The Russian artillery, long inactive from lack of shells, played an important part in the defeat of the Austro-Germans at Konluchy. For two days a rain of iron was thrown into the German positions and Berlin says officially that they were turned into a crater field. The Russians not only carried three lines of German trenches and Konluchy, which was strongly fortified but also advanced to the Konluchy stream south of the village which is on the Zlota-Lipa river.

**FLOUR SUBSTITUTES FOR THE SOUTH**

Washington, D. C., July 4 — The South has at its command a variety of foodstuffs which can be used to excellent advantage as part substitutes for wheat flour in making bread and biscuits. Housewives are urged by specialists in the United States Department of Agriculture to try some of these in their bread making. Not only will they be able to effect a saving in household expenses, but by reducing in the South the consumption of wheat flour brought in from other sections of the country, they will be helping materially to leave the railroads freer to transport necessities.

Among the wheat-flour substitutes recommended by specialists for the South are:

1. Banana, cassava, dasheen, and sweet potato.
2. Rice and kafir.
3. Soy beans and peanuts.

The substitutes in group 1 should be mixed with good white flour in the proportion of 1 to 3. The resulting bread is excellent in every way. Only a little less rich in protein than ordinary bread, it is much richer in minerals and other important constituents. Dried bananas should be used in making banana flour; the dasheen and sweet potato may be boiled and then mixed with the flour, or the dried product may be used.

Rice and kafir should be mixed with flour in the same proportion as the substances in group 1 — 1 to 3. Bread made from kafir is somewhat darker in color but richer in protein and ash than white bread. Brown rice flour mixed with wheat is also somewhat darker in color than white bread but it is as rich in protein and other food constituents. The use of polished rice does not add either to the appearance of the bread nor to its nutritive value.

Soy beans and peanuts are extremely rich in protein and fat. Flour prepared from either of them, when mixed with white flour in the proportion of 1 to 3, is well adapted to make a nutritious bread. Bread made from white flour alone contains less than 9 per cent protein and only about 0.3 per cent of salt-free ash, while bread made from soy bean and wheat flour contains about 14 per cent protein and 1 per cent salt-free ash. Bread made from peanut and wheat flour mixture contains about 12 per cent protein and about 0.62 per cent salt-free ash. Thus it is seen that even when only

**URIC ACID IN YOUR FOOD**

Maysville People Must Learn the Danger of a Heavy Meat Diet.

Even dogs can eat too much meat. Certainly, many people "dig their graves with their teeth."

Few get enough exercise to justify meat more than once a day. Meat brings uric acid. The kidneys try hard to get rid of that poison.

But often a backache or some other unusual ill. Will show that the kidneys need help.

The time-tried remedy, then, is Doan's Kidney Pills. The remedy backed by Maysville testimony. Read this case. Mrs. W. A. Schatzmann, 605 E. Second street, Maysville, says: "From the benefit I have received from Doan's Kidney Pills, which I buy at Chambers' Drug Store, I have every reason to recommend them. Whenever my kidneys have been irregular in action or I have suffered from weakness and lameness in the small of my back, I have used Doan's Kidney Pills. They have always proven sufficient to quickly cure and attack."

Mrs. Schatzmann is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Schatzmann uses—the remedy backed by home testimony. See all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back Is Lame—Remember the Name."

1 part of these substitutes is mixed with 3 parts of white flour the resultant bread is about 40 to 80 per cent richer in protein and about 50 to 300 per cent richer in mineral ingredients other than salt.

As each person, it is calculated, consumes about 3½ of a barrel of flour a year, and as the population of the Southern States is approximately 30,000,000, it is obvious that the general use of these wheat-flour substitutes would result in a marked reduction in the total quantity of wheat flour consumed in the South. On the basis of a total flour consumption in the Southern States of over 22,000,000 barrels, it has been estimated that if the practice became universal, the use of 25 per cent of flour substitutes grown in the South would save over 5,500,000 barrels of flour. As a matter of fact, however, the saving would be far greater than this because a much larger proportion of flour substitutes can be used in the preparation of biscuits than in bread. In view of this fact, the total saving might amount to 10,000,000 barrels of white flour. All

this flour, it must be remembered, is imported into the South from other sections and the consumer must pay freight rates on it.
